ACFD TRUCK COMPANY PERFORMANCE EVOLUTION #3

Parapet Vent w/35' Extension and 12' Roof Ladder, 24' Safety Ladder

Tactical Objective: Set up for Parapet Ventilation

Given: 3-person crew in full turnout equipment, Truck with 35' extension, 24' single and 12' roof ladders, 3 SCBAs, axe, 12' pike pole and chain saw.

Performance: The crew will position the 24' Safety Ladder, 35' Extension Ladder and 12' Roof Ladder for access over a PARAPET WALL to a flat roof and bring the tools for cutting and removing the roofing.

Standard: Within 4 minutes 15 seconds, in a SAFE and EFFICIENT manner. The TIME STARTS with all crew members sitting in the Truck and the command, "SET UP for PARAPET VENTILATION" is given by the Officer. The TIME STOPS when all the tools are in place and the 3rd crew member's 2nd foot steps on top of the parapet wall.
