

# ACFD TRUCK COMPANY PERFORMANCE EVOLUTION #4

## Parapet Vent with Aerial to 2<sup>nd</sup> story balcony

- Tactical Objective:** Set up for Parapet Roof Vent with Aerial
- Given:** 3-person crew in full turnout equipment, Truck with an aerial and 12' roof ladder, 3 SCBAs, axe, 12' pike pole and chain saw.
- Performance:** The crew will position the Aerial Climbing Ladder and Roof Ladder for access onto a PARAPET ROOF and bring the tools for cutting and removing the roofing.
- Standard:** Within 4 minutes, 30 seconds, in a SAFE and EFFICIENT manner. The TIME STARTS with all crew members sitting in the Truck and the command, "SET UP for PARAPET VENT" is given by the Officer. The TIME STOPS when all the tools are in place and the crew members have their face pieces on.
